

# Dr. E. C. Saylor's Collection of Family Bible Transcriptions

Dr. E. C. Saylor's interest in the families of Somerset County was not limited to the Saylor family.

He transcribed data from a large number of family documents. Much of this data was from family Bibles, cemetery headstones and church records that pre-date the 1850 census records. His typed pages were microfilmed during February 1957 and are available for loan from the Family History Library, film # 0022055. I will try to keep the following list in alphabetical order. The microfilmed pages are not numbered nor always in alphabetical order.

His original pages are preserved. Copies are available at the Berlin Area Historical Society. These copies may be more legible than the microfilmed images. However, I found the microfilm to be useable. Microfilm # 0022055 is also available at the Meyersdale Public Library.

This collection consists of about 600 pages. Where I found connections with the Saylor family, I prepared reports from my *Family Tree Maker* database in **.pdf** format. These reports will be added to the web site as time permits. My data collection may reference additional sources. However, I have **NOT** looked for **ALL** available sources.

**Use the following information as a reference ONLY. You should seek additional confirmation of accuracy, if you wish to prove your personal connection to a particular family.**

My reports may include data **NOT** included in Dr. Saylor's transcriptions. Also, they will **NOT** include the source and location of Dr. Saylor's data.
