## Foreword

This book contains the facts, who, where, when, but not the story of our family. If you can add to our history or have an anecdote to tell, then please share it and help make our story come alive. Even little things, like your cousin the fisherman who didn't eat fish, will make our story more personal. If you can add to our story, please contact me! I hope to have at least a photo of everyone who is here. It is amazing how often there is a close resemblance for relatives separated by generations.

## **Introduction**

The following pages list data for all known family members as of March 05, 2024.

Each immediate family is presented in their own section that contains a graphical family tree as well as a description with information about each referenced person and their children. The child section provides information about the children of the preceding couple. When a child has offspring of their own this is presented in a separate family section for that child. In this case a '+' is used to denote that an individual will appear later in the book as a parent with his/her own children and there is a link to the appropriate family reference number. For children with partners but no offspring the partner data is given with the reference family. Roman numerals, followed by a period, are used to indicate the birth order.

In the chapter titled "Families of the Starting Person" the ancestors of George Saylor and Elizabeth Penrod are presented in a kind of enhanced Pedigree Chart which displays the graphic representation of their direct-line ancestors and the children of the couple. This chapter contains information about the couple whose offspring are listed in the later chapters.

The chapter titled "Families of the Descendants" provides details (as known as of the publication date) for the offspring of George Saylor and Elizabeth Penrod. There is a chapter for each generation. Relatives are listed in the order of the nearness of their relationship.

Sources for the information provided are given in the footnotes.

This document reports the details of 346 individuals, of whom 159 are male and 187 are female. Of the 140 individuals with recorded birth and death dates, the average lifespan was 66.4 years. Of these, 71 males averaged 64.8 years, and 69 females averaged 68 years. The longest living male was James Haupt (1857–1953), who died aged 95. The longest living female was Sada C. Saylor (1882–1983), who died aged 100.

Copy of email received from Wes Saylor, September 15, 2013

It was good to hear from you Bill. I'm the third great grandson of George Michael Sayler. 30 years or more ago I worked with Viola Saylor Miller (VSM) on the history of the Sayler family. I had a guide given to me by Joseph Sayler, a cousin of my Grandfathers. My 2nd great grandfather was John Sayler Son of George Michael Sayler and brother of Susanna Sayler Longabaugh. After a long period of working together I realized that Viola and I were talking about two different George Michael Sayler's. I had found the birth data Of George Michael's family. See the following:

Elizabeth born Dec 8 1776  
 Salome (Sally) born 30 Nov 1778  
 Geore born 20 Jan 1780  
 Samuel born 28 Mar 1781  
 Jakob born 22 Sept 1784  
 John born 26 May 1787

I never have found Susanna's birthday, But I think it was around 1790

and was probably in Somerset, because George moved there around 1790. Their mother disappeared between 1790 and 1800. (Maybe died during childbirth.) This data is found in the Church Record of the Cocalico reformed Church Ephrata Township, Lancaster County Pa. 1766 1861 You can find; listings for Andrew and Susanna in the 1850 and 1860 Census including Josia,

I'll close for now and gove; upi more later. Thanks for your help. Wes Sayler
